PROFILE

Hello, I'm **Shiva Kumar Nandala!** 👋
I'm a passionate and versatile professional with a unique blend of skills in Full Stack Development.
I'm expertise in frontend and backend technologies, including HTML/CSS3, Bootstrap, JavaScript, MySQL, MongoDB, Node.js, and React.js, I have the skills to design user interfaces, develop RESTful APIs, and create web services.
I'm a problem solver and always eager to expand my skill set.
Ready to contribute to impactful projects My commitment to learning and adaptability is at the core of my professional identity.

PROJECTS

Social Media Application

- Implemented user authentication and authorization using JWT. Developed RESTful APIs for user registration, login, and post creation.
- Integrated MongoDB to store and retrieve user data and posts..
- Description: Developed a social media application using the MERN stack (MongoDB, Express.js, React.js, Node.js). The app allows users to create profiles, post updates, follow other users, and engage in discussions
- Technologies Used: React.js, Node.js, Express.js, MongoDB
- **Key Contributions:**
- Implemented user authentication and authorization using JWT.
- Developed RESTful APIs for user registration, login, and post creation.
- Integrated MongoDB to store and retrieve user data and posts

Slot Booking Application

- Description: Developed a web application for booking movie tickets, allowing users to browse movies, select showtimes, and reserve seats.
- **Technologies Used**: Node.js, Express.js, MySQL, MongoDB, HTML5, CSS3, JavaScript
- **Key Contributions:**
- Designed and implemented the backend RESTful APIs using Node.js and Express.js to handle movie data, showtimes, and bookings.
- Integrated both MySQL and MongoDB databases to store and retrieve movie and user information efficiently.
- Developed the frontend user interface using HTML5, CSS3, and JavaScript, providing an intuitive and responsive booking experience.

Static Websites

- Description: I recently designed and developed a collection of static websites, including an e-commerce site, a tourism website, a restaurant site, and a todo list application. Leveraging my skills in HTML, CSS, Bootstrap, and JavaScript, I created visually appealing and user-friendly interfaces for each website
- **Technologies Used:** HTML , CSS , Bootstrap And javascript
